

AZIEL RUNTIME

Disabled, Off, Stubbed, Gated & Not-Yet-Implemented Feature Audit

Baseline: aziel-runtime 1.7.3 (authoritative for 1.7.3+)

Date: 2026-09-10 Identity: Aziel Eliab only Items: 50

Markdown: docs/audit/FEATURE-STATE-2026-09-10.md

This file: docs/audit/FEATURE-STATE-2026-09-10.pdf (GitBaby binary path)

Not a Softwares-tab product. Not a FragGate slug. GET /v1/mesh never enables.

BOTTOM LINE

Most catalog Software is wired in-process. Unfinished work concentrates in networking, external action, named stubs, and distribution.

Security and architecture intentional OFF must stay.

EMBRYOLOCK TRANSITION

At PR time EmbryoLock is still STUB / local-not-hosted (FG-STUB).

Parallel land: live-with-local-destructive-boundary (Vault/Custody; destructive ops stay local-only). This audit does not flip that land.

INVENTORY 1-50

1	QNM / Node Mesh radios	OFF (default)	intentional OFF
2	QNS proxying	OFF	intentional OFF
3	Public mesh auto-enable	DISABLED	intentional OFF
4	EmbryoLock	STUB (transition)	transition
5	AZChat	STUB	intentional OFF
6	VeilLock public execution	LOCAL ONLY	intentional OFF
7	VeilLock inject / intercept / facetime	STUB	intentional OFF
8	ARK scorch / wipe / unlock / encrypt	STUB	intentional OFF
9	WhistleLock send / mail / release	STUB	intentional OFF
10	MirageGrid VPN-hop / hop / tunnel / mesh	STUB	intentional OFF
11	AzielTether mesh-join / vpn / arm	STUB	intentional OFF
12	AZ-OS exec / shell	STUB	intentional OFF
13	AZAI blend / complete / chat	STUB	intentional OFF
14	EmployeeLock court / judge	STUB	intentional OFF
15	PeaceLock transcript / motive / etc.	STUB	intentional OFF
16	4DMap truth_score / lumen / invent / back	STUB	intentional OFF
17	AZBrowser tor_exit	STUB	intentional OFF
18	AZBrowser phoenix_wipe	STUB	intentional OFF
19	AZBrowser Chromium	NOT IMPLEMENTED	gap (stay absent)
20	AZMail SMTP	NOT IMPLEMENTED	intentional OFF
21	AZMail deanonymization	STUB	intentional OFF
22	AZMail anonymous mesh	OFF (default)	intentional OFF
23	TrajectoryLock media store	NOT IMPLEMENTED	intentional OFF
24	WhistleLock file store	NOT IMPLEMENTED	intentional OFF
25	AZNet payload hosting	DISABLED BY DESIGN	intentional OFF
26	AZNet unpaired privileged ops	CONDITIONALLY OFF	gated
27	AZHub auto-unlock	OFF	intentional OFF
28	AZInterface page cycles	PRE-LOCKED	intentional OFF
29	Corpus D1 / Whisper / OCR	PARTIAL / PROXY	gap
30	Universal local execution	NOT COMPLETE	gap
31	Public rollback	OFF	intentional OFF
32	RoseClock rollback	OFF	intentional OFF
33	Gate FEATURE-STATE-2026-09-10 Aziel Eliab only	OFF (not a hop)	intentional OFF
34	ASE	OPTIONAL	gated
35	ZD30	ABSENT	intentional OFF

39 AKM rebuild-index	OPERATOR-GATED	gated
40 Memory posterior authorizes action	OFF	intentional OFF
41 Unauth session mutate	OFF in prod	gated
42 Unknown tools	REFUSE	intentional OFF
43 Destructive / fantasy ops	REFUSE	intentional OFF
44 Full internal MCP	LIMITED	partial
45 Complete OpenAPI	INCOMPLETE	gap
46 /p default agent path	OFF BY DESIGN	intentional OFF
47 FragGate as catalog engine	OFF	intentional OFF
48 Node Mesh as normal catalog engine	OFF	intentional OFF
49 Per-domain public doors	OFF	intentional OFF
50 Zenodo live publication	INACTIVE	gap

INTENTIONAL OFF MUST STAY: mesh GET, QNS via, rollback, ZD30, AZChat engine, hosted vault unlock/wipe, VPN/hop/Tor/SMTP/payload host, Node Gate, per-domain doors, posterior-as-truth. Do not enable mesh or safety stubs from this audit.
